Dear Dr Kelly

Thank you very much for submitting the above manuscript to DEMO Test Journal 3.

Your manuscript has now been evaluated by external reviewers and members of the editorial board. While we certainly find merit in your paper, a number of points of criticism were raised and we therefore regret to inform you that your manuscript is not acceptable for publication in its present form. If you feel that you can adequately address the criticisms outlined in the reviewer reports below, we would be willing to reconsider a thoroughly revised version of your manuscript.
